

LEARNING IS NOT ON LOCKDOWN

Even during a pandemic, we can create a brighter future for India's students.

Share & Care has a long history of promoting education as a means to uplift underprivileged children, and through our Educate 2 Success Signature Program, we have provided hundreds of students with the opportunity to thrive as productive, compassionate, and confident members of society.

We recently partnered with the NGO Gujarat Vidyapith (founded by Mahatma Gandhi in 1920) to empower 4,050 village students through a program focused on experiential learning. This program helps to prepare students for a new "science ecosystem" through hands-on experimentation and an emphasis on creativity and analytical skills.

Can learning continue during COVID-19?

Absolutely. As the coronavirus took hold, we adjusted our support, which enabled Gujarat Vidyapith to identify and act on solutions to fit with the world's current challenges. These solutions include providing students with experiment kits and newly created online videos, as well as monitoring (and working to improve) internet access for the students enrolled in their program.

Experiential learning aligns perfectly with Share & Care's mission to provide real-world opportunities, and to do so equitably through access to effective education.
